I am seeking a *course equivalency* to transfer **graduate credits** earned at Wayne State or another institution to my degree program in anthropology. You must separately add these courses to your Plan of Work.

I am seeking a *waiver* of required coursework because I have taken undergraduate courses or have other experience that I believe to be equal to some course requirements of my program. You will not receive course credit, and must still take the full amount of credit hours required in my program.

For which WSU anthropology course(s) are you requesting an equivalency or waiver?

Please provide a brief rationale for your request.

**Please attach course syllabi documenting your prior work, as well as any additional relevant documents.**
