

## **BIO 1510: Basic Life Mechanisms**

### **Lecture Syllabus, Spring/Summer 2021**

3 credits without lab — for civil, chemical, mechanical, and electrical engineering students

4 credits with lab — for all other students

2:30 pm - 4:00 pm; Mondays and Wednesdays

### **Welcome to Biology 1510!**

In this document, you will find all the information you need regarding the course structure, the content of the course, grading policies, quizzes and exam dates, and other important information. By registering for the class, you agree to follow all of the policies listed in the syllabus and those that are mandated by the University. Therefore, **I highly recommend that you read the syllabus in a great detail.** I look forward to a fun and exciting semester with all of you!

Dr. Turchyn

### **COURSE DESCRIPTION AND OBJECTIVES**

BIO 1510 is the first of two courses in a two-semester sequence of introductory biology for biology and science majors, including science education, pre-allied health, and engineering students. The objective of this course is to understand the structure, metabolism, and reproduction of living things from the perspective of the cell. Thus, the course will focus on the role of biochemical and subcellular components including proteins, nucleic acids, and organelles in the nutrition, inheritance, and development of plants and animals. The course will also relate these concepts to topical issues such as nutrition, human genetics, and recombinant DNA technology.

### **STUDENT LEARNING OUTCOMES**

Upon successful completion of the course, students should be able to:

1. How inheritance and mutations are critical for **evolution**.
2. How **structures** of molecules, cells, and tissues relate to their **functions**.
3. How **information** (genetic, sensory and regulatory) flows within cells (intracellular signaling, and from DNA to RNA to proteins), between cells, and from parents to progeny.
4. How **energy and matter are transformed** in cellular respiration, photosynthesis, and

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

respiration.

5. How the components of cells interact as **systems** to generate emergent properties.
6. How **science is based on evidence** and makes predictions.
7. How to interpret biological data **qualitatively, quantitatively, and graphically**.
8. How to express scientific ideas multiple ways and be able to **communicate across disciplines**.
9. How science informs the decisions of a **society** and how science creates opportunities that require informed citizens and policies.

### **COURSE PREREQUISITES**

Students are required to have completed **either** BIO 1050 (Introduction to Life) with a grade of C- or above; **or** a C- or better in BIO 1500 (Basic Life Diversity), **or** have an ACT score of 24 or higher, **or** have a passing score on the Biology placement exam. Students who managed to enroll in this course without satisfying these prerequisites are not likely to succeed in this course and for this reason will be required to drop it. Students who have questions about these prerequisites should contact the Biology Department's Undergraduate Advisor during the first week of class.

### **FIRST DAY INCLUSIVE ACCESS COURSE MATERIAL**

BIO 1510 is participating in a pilot for the spring/summer semester of the course material access and affordability program called First Day Inclusive Access. This program will make eText **Biology, 12<sup>th</sup> edition by Raven, Johnson, Mason, Losos, and Duncan** available to you on or before the first day of class in the [Course Materials](#) on Canvas and usually at a discounted price. **A direct charge for the course material is placed against your student account and is visible on your tuition bill.** Participation in the First Day program is optional. Opting-out will result in a refund placed against your WSU student account, which will be disbursed in accordance with the Office of the BURSAR, Student Accounts Receivables Policies. For information regarding the First Day Inclusive Access course material pilot including price discounts, please visit [studentservices.wayne.edu/bookstore/inclusive-access](http://studentservices.wayne.edu/bookstore/inclusive-access) or the Barnes & Noble College First Day Inclusive Access FAQ page at <https://customercare.bncollege.com>.

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

### Things to consider before opting out:

- The material through this program is priced at market value or lower.
- Market value is defined as the price you would pay if you purchased the exact same material and format directly from the publisher.
- The opt-out window for your course is **05/24/2021**.
- You may opt-out or back in as many times as you want through 05/24/2021.
- Regardless of your opt-out status, your access to the content will remain through 05/24/2021.
- If your final status is opt-out at the end of the opt-out period, you will **NO** longer have access to the course material eText shortly after the opt-out date.
- If you opt-out, you will need to purchase the required course material independently either through the campus bookstore, publisher website, or your favorite textbook provider.

### ADD/DROP INFORMATION

Students can enroll in the class until **May 23<sup>rd</sup>**. If a student signs up for the class and decides to drop it before **May 23<sup>rd</sup>**, the tuition for the class will be cancelled, the student will be reimbursed, and the class will not show on his/her transcript. However, if the student drops the class between **May 24<sup>th</sup>** and **July 18<sup>th</sup>**, the tuition will not be reimbursed and a final grade of "WP" (withdrawal with a passing grade, if average of all lecture exam scores earned to date is greater than or equal to 60%), "WF" (withdrawal with a failing grade, if average of all lecture exam scores earned to date is less than 60%), or "WN" (withdrawal never attended) will be shown on his/her transcript. **All withdrawals must be requested through Academics and they will not be granted after July 18<sup>th</sup>**. If the student signs up for the class, stops attending lectures, and fails to withdraw, he/she will receive a failing grade "F" for the course. **Please note that "incomplete" grades will not be issued to students in poor standing who are seeking an alternative to a late drop.**

### STUDENT CODE OF CONDUCT

All participants in the course are bound by the Student Code of Conduct that can be found at <https://doso.wayne.edu/conduct/academic-misconduct>. The University is aware that students often use WhatsApp and/or other group messaging apps for the purposes of cheating on their

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

classwork. Be aware that using group messaging apps in this manner is indeed a violation of the academic integrity honor code and can come with consequences. **Students who knowingly or intentionally conduct or help another student engage in dishonest conduct, acts of cheating, or plagiarism will receive a grade of "F" for the course and may be expelled from the University.**

### OFFICE HOURS AND COMMUNICATION

**Any questions/comments regarding the lecture** portion of the course should be directed to:

Dr. Nataliya Turchyn

E-mail: [ai7380@wayne.edu](mailto:ai7380@wayne.edu)

**Virtual Office Hours:** 1:00 pm - 2:15 pm on Mondays and Wednesdays or by appointment

If you have any questions related to the lecture material or assignments, please post them on the [Canvas Discussions](#). I will do my best to reply to your question(s) within 24 hours. You can also ask me questions in real time during my virtual office hours on [Canvas Zoom](#).

**I will NOT reply to e-mails when the answer can be found in the syllabus or on Canvas. In addition, I will NOT reply to e-mail questions that have already been answered on the [Canvas Discussions](#).**

If you have a question about your lecture grade, please send me an e-mail containing the scores you have in your records and I will check them with my records. I will do my best to reply to your email within 24 hours.

**Any questions regarding the lab** portion of the course have to be directed to your lab teaching assistant (TA) and/or lab coordinator, Dr. Madelyn Tucker, email: [ax6019@wayne.edu](mailto:ax6019@wayne.edu).

When e-mailing me, Dr. Tucker, or TA, please use professional style with your course number in the subject, a proper greeting (e.g., "Dr. Turchyn, Dr. Tucker, or Ms/Mr/Mrs. Teaching assistant"), and correct punctuation including capitalization and no texting abbreviations. E-mails that do not follow these rules may take longer to get a reply or may be returned for correction.

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

The Academic Success Center offers individual **tutoring** and **group workshops** to the students, which are free of charge. You should schedule appointments or request for group sessions early in the semester. Use <https://success.wayne.edu/pal/csq> for the group request and <https://wams.wayne.edu/tutoring> for individual tutoring appointments.

### VIRTUAL ATTENDANCE

The lectures will be conducted live using **Canvas Zoom** at the given class time, on **Mondays and Wednesdays from 2:30 pm - 4:00 pm**. Considering the course is deemed challenging by many students, I highly recommend not to skip any lectures. You should also attend my virtual office hours to ask questions and get further guidance and support, if something is unclear to you.

### INFORMATION ABOUT QUIZZES

Students are expected to take an active role in their learning by attending lectures, going over PowerPoint slides with my handwritten notes, doing study guides and old exams, reading the textbook, and taking online quizzes through **Canvas Quizzes**. Questions will be drawn from materials covered in the lectures and study guides. Each quiz will be timed and posted for 48 hours. **Students will have only one attempt. The quizzes will turn on from Saturdays (12:30 pm) to Mondays (12:30 pm), except quizzes #3, 5, and 7. If you miss the quiz deadline, you will lose the points associated with it. Students will have a chance to earn more than 90 points for completing all 9 quizzes, but only 70 points will count toward their final grade.**

### INFORMATION ABOUT EXAMS

**There will be four exams given during the semester and one final, cumulative exam (five exams total).** The regular and final exams will consist of 40 and 50 multiple choice and true/false questions, respectively. Some questions will have images. **All exams are closed book and are related to the material covered in the lecture, study guides, and assigned in reading of the textbook.** The regular and final exams will be worth 120 and 150 points, respectively. **Every student must take the final exam and it cannot be dropped.** If the percentage of your final exam score is higher than the percentage of your lowest semester exam score, your lowest semester exam score will be replaced.

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

For example, if you score on exam #2 90 out of 120 points, then your exam #2 would be 75% ( $90/120 \times 100\%$ ). If you score on the final exam 120 out of 150 points, then your final percentage would be 80% ( $120/150 \times 100\%$ ). Your exam #2 score would be recalculated using the 80% you received on the final exam and your new exam #2 score would be 96 points ( $80/100 \times 120$  points).

**The FINAL EXAM is scheduled for MONDAY, AUGUST 2<sup>ND</sup> at 2:30 PM - 4:00 PM. All exams and quizzes will be administered online through [Canvas Quizzes](#) using Respondus LockDown Browser and Monitor that requires a webcam to ensure academic integrity.** Respondus LockDown Browser is compatible with Microsoft Windows 10 (includes x86 32 and 64bit processors and ARM 64bit processors using x86 emulation), 8 or 7, MacOS 10.12 or higher, iOS: 11.0+ (iPad only), and most Wayne State-managed Chromebooks. However, it is **NOT** compatible with personally owned Chromebooks, Microsoft 10S or Android. To download LockDown Browser in Canvas, click **Help** and then [Students: Links and Downloads](#). For more information, please visit the Respondus Student Resources web page at [web.respondus.com/student-help/](http://web.respondus.com/student-help/).

Each regular exam will take place on specified Monday or Wednesday at 2:30 pm - 3:40 pm (see **SCHEDULE OF LECTURES, QUIZZES, AND EXAMS** on the last two pages). Students will have only a single attempt at the exam itself. Although one question will be shown at a time, you will be able to review all your responses before submitting your exams.

**There are no make-up exams. If the student misses a regular exam for ANY reason, the percentage the student receives on the final exam will be used as the percentage for the missed exam.**

For example, if you score on the final exam 135 out of 150 points, then your percentage on the final exam would be 90% ( $135/150 \times 100\%$ ). So, if you missed exam #2 for any reason, your percentage on exam #2 would be 90%, which is 108 points.

The final exam is scheduled as designated in the Schedule of Classes for this term. No other time for the final exam will be available, and no exception will be made for conflicts such as student

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

travel plans or other exams the same day. **Once you have finished answering the questions, click the Submit button at the bottom of the exam. When the time is up and you have not submitted your answers, a pop-up window will ask you to submit your answers or Canvas will force your submission. No extra time will be given to those students who start working on their exam too late.**

If more than 75% of the class answers an exam question incorrectly, everyone will receive credit for that question.

### **CALCULATING GRADES**

If you are taking the 3-credit lecture only section of the course, the total points possible for the course are 700 points. If you are taking the 4-credit section that includes the lecture and lab, the total points possible are 1000 points (700 points from lecture + 300 points from lab). **The final scores in the lecture are calculated using scores from the five exams and quizzes. There is absolutely no opportunity for extra credit or alternate assignments under any circumstances.** All exam scores will be posted in the [Canvas Grades](#). **Exams will not be given in advance.**

It is the student's responsibility to keep track of his/her scores. You can fill in the blank lines below to keep track of your scores.

Exam I	_____ (out of 120)
Exam II	_____ (out of 120)
Exam III	_____ (out of 120)
Exam IV	_____ (out of 120)
Final Exam	_____ (out of 150)
Quizzes	_____ (out of 70)

If you are taking the 3-credit lecture only section, add all the scores above, divide by 700, then multiply by 100 to determine your final percentage.

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

If you are taking the 4-credit section, add all the scores above to the total score from your lab (out of 300), divide by 1000, then multiply by 100 to determine your final percentage.

**Final grades are assigned based on the following percentage:**

A	93.5 - 100%	C	72.5 - 75.4%
A-	89.5 - 93.4%	C-	69.5 - 72.4%
B+	85.5 - 89.4%	D+	65.5 - 69.4%
B	82.5 - 85.4%	D	62.5 - 65.4%
B-	79.5 - 82.4%	D-	59.5 - 62.4%
C+	75.5 - 79.4%	F	≤ 59.4%

### **GRADE DISPUTES**

Students will have one (1) week after the return of an exam to challenge a grade for any question. Failure to challenge the grade within this period indicates a willingness to accept the grade as is. The challenge should consist of a written description of why the answer is correct based on lecture PowerPoint slides and textbook. It is not an opportunity to complain.

### **EXAM TIME CONFLICTS**

Students are not required to take more than two final exams in one day. A student with more than two scheduled final exams on one day may (not must) contact the instructor of the course with the lowest number of students enrolled to arrange an alternate time for the final exam. Such petitions must be made at least one week prior to the scheduled date of the exam. Our class has ~90 students.

### **RELIGIOUS HOLIDAY CONFLICTS**

Students who have a conflict with any of the scheduled exam times due to religious reasons must notify me in writing by class time on **Monday, May 24<sup>th</sup>**. **Accommodations will not be provided unless I am notified in writing by this date.**

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

## STUDENTS WITH DISABILITIES

If you have a documented disability that requires accommodations, you will need to register with Student Disability Services for coordination of your academic accommodations. The Student Disability Services (SDS) office is located at 1600 David Adamany Undergraduate Library in the Student Academic Success Services department. The SDS telephone number is 313-577-1851 or 313-202-4216 for videophone use. Once you have your accommodations in place, please send me an email discussing your special needs. Student Disability Services' mission is to assist the university in creating an accessible community where students with disabilities have an equal opportunity to fully participate in their educational experience at Wayne State University. You can learn more about the disability office at [www.studentdisability.wayne.edu](http://www.studentdisability.wayne.edu).

To register with Student Disability Services, complete the online registration form at: [https://wayne-accommodate.symplicity.com/public\\_accommodation/](https://wayne-accommodate.symplicity.com/public_accommodation/).

## HOW TO SUCCEED IN BIO 1510?

In order to succeed in BIO 1510, you would need to do the following:

1. Try not to skip any lectures. You are encouraged to take more notes on each lecture if you want.
2. Study the ppt slides with my handwritten notes afterwards, paying attention to the images.
3. **Re-listen to the lecture one or more times AFTER studying.** If there is something that you still do not understand, post your questions on [Canvas Discussions](#) and/or ask me during my virtual office hours on [Canvas Zoom](#).
4. To test your knowledge on the material, do the study guide for each chapter **WITHOUT** using ppt slides or notes. If there are any questions that you cannot answer without help, you have to study that material again before moving to the next chapter.
5. If you still do not understand the material, read the textbook and do the questions at the end of each chapter to test your knowledge again.
6. Always do my old exams one day before an actual exam. If you are struggling on those, it means that you are not prepared to take the exam and you have to study more.

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

7. Attend SI sessions weekly and/or request weekly study groups at <https://success.wayne.edu/pal/csg> and/or schedule individual tutoring appointments at <https://wams.wayne.edu/tutoring>.
8. Try to study for the lecture portion of the course at least 8 hours per week by understanding, critical thinking, and being able to apply what you have learned. Be aware that biology differs from other classes because it is all about concepts, and it takes time and effort to learn and understand them.

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

## SCHEDULE OF LECTURES, QUIZZES, AND EXAMS

The PowerPoint slides with my notes, study guides, old exams with answer keys, animations, and syllabus can be found on [Canvas Homepage](#). All lectures will be recorded and posted in the Cloud Recordings on [Canvas Zoom](#). If there are any issues with Canvas or LockDown Browser, please contact Computing & Information Technology (C& IT) at (313) 577-4778 or [helpdesk@wayne.edu](mailto:helpdesk@wayne.edu).

Here is the schedule indicating what chapters you have to study, and the due dates for the exams and quizzes.

<u>Topics and Assignments</u>	<u>Chapter(s)</u>	<u>Date(s)</u>
Course Introduction		5/10
Nature of molecules and properties of water	2	5/10 and 5/12
Chemical building blocks	3	5/12, 5/17, and 5/19
<b>Quiz #1</b>	<b>2</b>	<b>5/17</b>
Cell structure	4	5/19 and 5/24
<b>Quiz #2</b>	<b>3</b>	<b>5/24</b>
Membranes	5	5/24 and 5/26
Energy and metabolism	6	5/26 and 6/4
<b>NO CLASS — MEMORIAL DAY</b>		<b>5/31</b>
<b>Quiz #3</b>	<b>4 and 5</b>	<b>6/1</b>
<b>Exam #1</b>	<b>2-5</b>	<b>6/2</b>
How cells harvest energy	7	6/4 and 6/7
Photosynthesis	8	6/9 and 6/14
<b>Quiz #4</b>	<b>6 and 7</b>	<b>6/14</b>
Cell communication	9	6/14 and 6/16
How cells divide	10	6/16 and 6/23
<b>Quiz #5</b>	<b>8 and 9</b>	<b>6/20</b>
<b>Exam #2</b>	<b>6-9</b>	<b>6/21</b>
Sexual reproduction and meiosis	11	6/23 and 6/28
<b>Quiz #6</b>	<b>10</b>	<b>6/28</b>

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.

<b>Topics and Assignments</b>	<b>Chapter(s)</b>	<b>Date(s)</b>
Patterns of inheritance	12	6/30 and 7/7
<b>NO CLASS — INDEPENDENCE DAY</b>		<b>7/5</b>
<b>Quiz #7</b>	<b>11</b>	<b>7/6</b>
Chromosomes, mapping, and the meiosis	13	7/7 and 7/9
<b>Exam #3</b>	<b>10-12</b>	<b>7/12</b>
DNA: the genetic material	14	7/14 and 7/19
<b>Quiz #8</b>	<b>13</b>	<b>7/19</b>
Genes and how they work	15	7/21 and 7/26
<b>Quiz #9</b>	<b>14</b>	<b>7/26</b>
<b>Exam #4</b>	<b>13-15</b>	<b>7/28</b>
<b>Final Exam</b>	<b>2-15</b>	<b>8/2</b>

The instructor reserves the right to alter, change, or amend any part of this syllabus as necessary during the course of the semester.
