HOW TO CONTACT ME: I am always in during office hours. If I have to cancel my office hours, I will announce alternative hours for that week in class. The most reliable way to reach me is to email me at kharib@wayne.edu. I also have a mailbox in the Department of Sociology, Room 2245 F/AB.

Amanda will assist me with grading all of the assignments. She and I will consult on the grading of all assignments. However, I have the final responsibility for determining your grade. If you have questions concerning grading, please consult me.

COURSE DESCRIPTION: This course assesses the knowledge of sociology majors and represents a “capstone” in sociological training. Students will choose a specific, researchable topic that relates to the discipline and explore possible theoretical approaches. In addition, students will develop a research paper related to the topic. Students will participate in a class-based research project using survey methodology. Each student will select questions from an existing survey, analyze the results, and write a paper that describes the aim, previous studies, theoretical framework, methods, data analysis, results, and conclusion. The paper will be article-length (15-20 pages) and modeled after manuscripts published in sociological journals. You must earn at least a “C” in this course to complete the requirements for sociology majors.

This course fulfills the university writing intensive requirement: “All students must demonstrate an ability to communicate effectively with specialized or professional audiences by completing successfully the writing requirements (courses incorporating major writing assignments) specified by the departments.” Writing is a critical part of the course requirements. Remember that the University has a great resource, the Writing Center, located on the second floor of the Adamancy Undergraduate Library in room 2310. You can make an appointment at the Writing Center by calling 313-577-2544.

This course is a four-credit course but meets for three hours every week. The additional hour is arranged. Students will make up this hour by completing the research activities.

COURSE GOALS

1. This is a writing intensive course, so the final product is a sociological paper based on original research. You will learn to write well as a sociologist.
2. As part of the course and writing the paper, you will learn how to:
 - a. develop a specific aim for a research project
 - b. locates relevant sociological literature on a topic, read the material, and write a literature review
 - c. develop hypotheses related to your research topic
 - d. interpret data, including tables showing descriptive statistics, frequency, distribution and percentages, means, zero-order correlations, and t-tests
 - e. is able to read and understand sociological research
 - f. write up the research paper per the attached guidelines
 - g. complete Responsible Conduct in Research Training
 - h. does an oral presentation of your research findings using power point
3. You will learn what you can do with a B.A. degree in sociology
4. You will learn about graduate programs in sociology
